

Web developed output for the project of 'ScreenTime Vs Mental Wellness'

The screenshot shows a web browser window with the address bar displaying '127.0.0.1:8000'. The browser tabs include 'How to open Spyder', 'Hope Artificial Intelligence', 'Django url import error fix - Cl...', and '127.0.0.1:8000'. The 'Ask Gemini' extension is visible in the top right corner. The web application itself has a light blue header with the title 'Mental wellness Prediction'. Below the title, a prompt says 'Please enter repective fields'. The form contains six input fields with the following labels and values: 'Screen time hours*' (9), 'Sleep quality 1 5*' (2), 'Stress level 0 10*' (5), 'Productivity 0 100*' (50), 'Exercise minutes per week*' (200), and 'Social hours per week*' (1). A blue 'upload' button is located at the bottom of the form. The Windows taskbar at the bottom shows the search bar with 'Type here to search', several application icons (including Chrome, VS Code, and Word), and system tray icons on the right indicating the time as 01:14 on 21-03-2026.
